Recommendations

- 1 set(s) of files share the same name across different locations (highlighted yellow in the tree). Review these and delete or consolidate the redundant copies to save space and avoid confusion.
- 3 group(s) of folders appear to be near-duplicates (highlighted green in the tree), e.g. "Invoices" vs "Invoices copy" vs "Invoices 2". Consider merging their contents into a single folder and removing the extras.
- Total scanned: 14 folders and 6 files.
